Bridge Repair Project on 115th Street over the Bishop Ford

CHICAGO – The Illinois Department of Transportation (IDOT) announced that closures will take place on the structure that carries 115th Street over the Bishop Ford Freeway (Interstate 94), in Chicago, for a bridge repair project, beginning, weather permitting, Monday, March 20.

In order to complete the work, 115th Street over the Bishop Ford will be reduced to one lane in each direction. Nightly lane closures also will be required on the Bishop Ford under the 115th Street bridge, as needed.

The scope of the project includes repairs to the bridge and reconstruction of the bridge deck. The project is expected to be complete in Summer 2017.

Motorists can expect delays and should allow extra time for trips through this area. Drivers are urged to pay close attention to flaggers and signs in the work zones, obey the posted speed limits and be on the alert for workers and equipment.
